Young Hag and the Witches Quest

"New York Times bestselling and award-winning author/illustrator Isabel Greenberg's Young Hag and the Witches' Quest is a unique YA graphic novel about an epic quest through Arthurian legends and a girl's journey to believe in magic again after the loss of her mother"

NEW GRAPHIC NOVEL OF THE MONTH:

Once there was magic in Britain. There were shape shifters and dragons and wizards and kings that pulled swords out of stones and green knights. But now the doors to The Otherworld have closed, and all the magic is gone. Young Hag and her grandmother, Ancient Crone, are the last of the witches in Britain though they don't have powers. But when faced with magic and myth, does Young Hag have any chance of succeeding and bringing back her family's magic? Or is she doomed to become just another tragic tale?
